

**ADVANCED HEALTHCARE,  
EXPERTISE & COMPASSION**  
– ALL UNDER ONE ROOF

## MESSAGES FROM MANAGEMENT

“

At PIMS Multi Super-Speciality Hospital, our vision has always been to provide advanced healthcare with compassion and integrity. We are committed to building a system where modern medical excellence meets the highest standards of ethics and patient care. Every department in our hospital is designed to serve with dedication, ensuring that patients and their families feel supported at every step of their journey. It gives me immense pride to see our hospital growing into a center of healing, trust, and innovation for the community.

**Mr. Ashish Agarwal**  
Chairperson

”

“

Healthcare is not just about treatment, but about creating an environment of care, dignity, and trust. At PIMS Multi Super-Speciality Hospital, our focus lies in combining advanced technology with personalized attention, ensuring that each patient receives the best possible experience. We strive to empower our medical teams with resources, research, and continuous learning so they can deliver excellence across every department. My vision is to see PIMS not only as a hospital, but as a place where hope is restored and lives are transformed with compassion.

**Mrs. Sheetal Agarwal**  
Chief Executive Officer (CEO)

”

“

PIMS Multi Super-Speciality Hospital stands as a symbol of progress in healthcare, driven by innovation, expertise, and empathy. We are committed to providing world-class medical services that are accessible and reliable for every patient. Our focus is on nurturing excellence across departments, fostering teamwork, and embracing the latest advancements in medical science. I believe that the true strength of PIMS lies in its people our doctors, nurses, and staff who work tirelessly to uphold our values. Together, we aim to set new benchmarks in patient care and community health.

**Mr. Naman Agarwal**  
Managing Director

”

# DEPARTMENT OF CARDIOLOGY

The Cardiology department at PIMS offers the latest technology and top specialists with best practices in emergency cardiac services and minimally invasive interventions and surgeries.

The cardiology department at PIMS Hospital is an integrated health centre with a highly trained, skilled and committed team of cardiologists and heart surgeons working in full collaboration to provide comprehensive and multidisciplinary treatment to patients suffering from varied heart disorders.

The interventional team is accessible round the clock to render assistance and ensure a quicker recovery.

## FACILITIES & SPECIALITY

- Comprehensive care for Acute Myocardial Infarction, Ischemic Heart Disease , Acute and Chronic Heart Failure, Congenital Heart Diseases, Rheumatic Heart Disease, Cardiomyopathies, Arrhythmias, Heart blocks, High and low BP, Peripheral Vascular Disease, DVT.
- 2D Echo
- Dobutamine Stress Echo
- Intravascular Ultrasound (IVUS)
- Rotablation and Complex aAngioplasty
- Fractional Flow Reserve (FFR)
- Coronary Angiography and Angioplasty (PTCA)
- Pacemaker - Single Chamber, Dual Chamber
- Implantable Cardioverter Defibrillator (ICD)
- Cardiac Resynchronization Therapy (CRT)
- Balloon Mitral Valvulotomy (BMW/BAV/BPV)
- Cath Study
- Device Closure for
  - Atrial Septal Defect
  - Ventricular Septal Defect
  - Patent Ductus Arteriosus
- Peripheral Vascular Intervention
  - Periphery Artery Stenting
  - Renal Artery Stenting
- Catheter Directed Thrombolysis

# DEPARTMENT OF CARDIAC SURGERY (CTVS)

Our Cardiac Surgery Department offers advanced, patient-centered care for complex heart conditions.

Backed by experienced surgeons, advanced technology, and evidence-based practices, we ensure superior outcomes. From diagnosis to recovery, we are committed to restoring heart health with precision, compassion, and the highest standards of surgical excellence.

## FACILITIES

- Dedicated Cardiac Operating Theatres with Laminar Airflow
- Advanced Cath Lab
- 24x7 Cardiac ICU with Ventilator Support
- Intra-Aortic Balloon Pump (IABP)
- Advanced Imaging: 3D Echocardiography, CT Angiography, Cardiac MRI
- Post-operative Cardiac Rehabilitation Centre
- Telecardiology Consultation Services
- Modular Sterile Environment for Infection Control
- Fully Equipped Emergency Response Team (ERT)
- Comfortable Inpatient Suites and Family Waiting Lounge

## SPECIALITES

- Coronary Artery Bypass Grafting (CABG) – Beating Heart & Conventional
- Valve Repair and Replacement (Mitral, Aortic, Tricuspid)
- Minimally Invasive Cardiac Surgery (MICS)
- Aortic Aneurysm and Dissection Surgery
- Pediatric and Congenital Heart Surgery
- Heart Failure Surgery
- Surgery for Cardiac Tumors and Pericardial Diseases
- Reoperative Cardiac Surgery
- Thoracic Surgery (Lung and Chest Wall) – Vascular Surgery
- Preventive Cardiac Screening and Second Opinions

# DEPARTMENT OF ORTHOPAEDICS

The Orthopedic Department provides advanced surgical and non-surgical treatments for bone and joint disorders, ensuring world-class care with best infrastructure. Specializing in joint replacement, ligament repair, spine surgeries, and pediatric orthopedics, the department is equipped with modern technology and experienced surgeons. Comprehensive services are offered under various health schemes including RGHS. Our commitment is to restore mobility, relieve pain, and enhance the quality of life for patients of all ages with personalized orthopedic solutions.

## FACILITIES & SPECIALITY

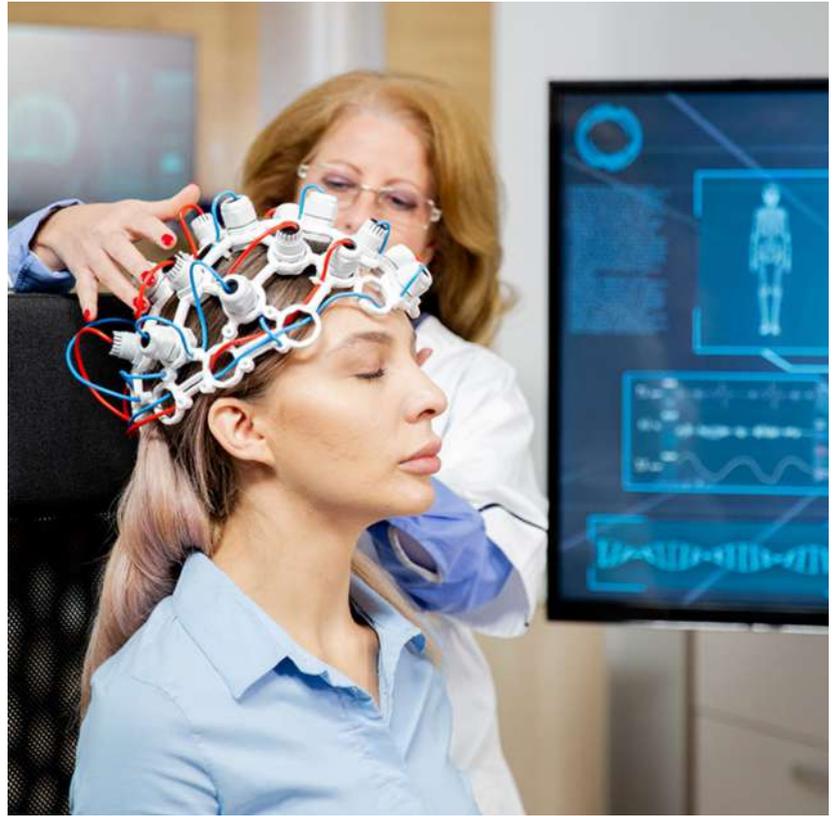

- Joint replacement surgeries for hip, knee, and shoulder (THR, TKR, RSA)
- Free diagnostic services under RGHS
- Arthroscopic ligament surgeries for knee and shoulder
- Meniscus (knee cushion) surgery
- Corrective surgery for deformed bones
- Limb lengthening surgeries using ILIZAROV technique
- Surgical treatment of all types of bone infections
- Spine fracture and disc surgery
- Surgeries for congenital bone deformities in children

# DEPARTMENT OF NEUROLOGY

The department actively pursues clinical care and research activities in the Sub-Specialties of Movement Disorders, Brain infections and immunology, Stroke, Parkinson's disease, Intractable epilepsy Neuro - Muscular Disorders, Sleep, Headache, Dementia amongst others.

The departments are equipped with the latest modalities for the diagnosis and management of various neurological disorders. The department has been in the forefront of medical research since its formation and is renowned internationally for quality clinical and basic research, in the field of Neurology.

## FACILITIES & SPECIALITY

- Neuro ICU care Unit
- Stroke Care Unit
- Movement Disorder Clinic
- Headaches /Migraine Clinic
- Epilepsy Clinic
- EEG & VIDEO EEG
- NCV
- RNST
- Advance MRI & CT Scan
- DSA (Digital Subtraction Angiography)
- Sleep Study / Polysomnography
- EMG
- VEP

# DEPARTMENT OF ONCOLOGY

The Oncology Department offers comprehensive cancer care with a focus on early detection, precise diagnosis, and advanced treatment. Our multidisciplinary team of experts provides personalized care through medical, surgical, and radiation oncology.

We treat all types and stages of cancer with a patient-centric approach, ensuring both clinical excellence and emotional support. With cutting-edge technology, dedicated facilities, and a compassionate team, we are committed to delivering the highest standards of cancer care to improve survival and quality of life.

## FACILITIES & SPECIALITY

### Facilities

- **Medical Oncology :**  
Chemotherapy targeted therapy & Immunotherapy
- **Surgical Oncology :**  
Complex and minimally invasive cancer surgeries
- **Radiation Oncology :**  
Precision radiotherapy techniques
- **Pediatric Oncology :**  
Cancer treatment for children
- **Hematologic Oncology :**  
Management of blood cancers
- **Palliative Oncology :**  
Pain relief and supportive care
- **Preventive Oncology :**  
Screening and cancer risk evaluation

### Specialities

- Modern chemotherapy and infusion units
- High-end radiotherapy equipment (IMRT, IGRT, brachytherapy)
- Advanced diagnostic tools (PET-CT, MRI, biopsy services)
- Dedicated oncology ICU and inpatient care units
- Tumor board for multi-specialty treatment planning
- Genetic and nutritional counseling
- Psychosocial and palliative support services
- Daycare facility for outpatient cancer treatments

# DEPARTMENT OF OPHTHALMOLOGY

Our Ophthalmology Department is a center of excellence, Delivering total Eye Care for all and spreading knowledge through education and training. We do India centric research for alleviating visual morbidity.

Our Experienced Surgeons, Advance Technology and evidence based practices ensure total eye care solutions of safety standards

## FACILITIES & SPECIALITY

- **CATARACT**
  - Advanced Refractive Contract surgeries using Topical Phacoemulsification Technique
  - Pediatric Contract Surgery
- **GLAUCOMA**
  - Medical and Surgical including Glaucoma Drainage
  - Devices and Stents (MIGS)
  - Pediatric Glaucoma Surgeries
- **OCULOPLASTY**
  - Squint Correction
  - Botox Injection
  - Proste Corrections
  - Prosthesis
  - Tarsorrhaphy
- **RETINA**
  - Green Lasers
  - Optical Coherence Tomography
  - Intravitreal Injections
  - Intravitreal Implants ( Ozurdex )
- **CORNEA**
  - C3R Lasers
  - Pentacam
  - Collagen Cross Linking
  - Specular Microscopy

# DEPARTMENT OF DERMATOLOGY

Our General Surgery department is dedicated to providing comprehensive surgical care with a focus on patient safety, precision, and recovery.

We manage a wide spectrum of conditions, from emergency trauma and life-saving procedures to planned elective surgeries that improve quality of life.

PIMS Multispeciality Hospital offers the best dermatology treatment, skin treatment and care for all types of dermatological diseases.

## FACILITIES & SPECIALITY

- Sexually Transmitted Diseases (STD)
- Leprosy, Specialty Clinic (Vitiligo and Alopecia)
- Patch testing for allergic contact Dermatitis.
- Skin Biopsy for Diagnosis purpose, Dermoscopy Woods Lamp, Whole Body Phototherapy Chamber.
- Radio frequency Surgery (for skin tags, warts, moles)
- Cryo-surgery (For warts and other skin lesions)
- Molluscum Extraction, Corn removal, Comedon Extraction, Vitiligo surgery.
- Dermatosurgery (Mole and Cyst Removal, Lipoma removal and scar revision)
- Acnes Scar complete treatment- Microneedling, Intralesional Injection, Laser.
- Platelet Rich Plasma Therapy, Chemical Peeling.
- Chemical Cauterisation
- Laser for hair removal , Tattoo removal

# DEPARTMENT OF **ANAESTHESIA**

The Department provides comprehensive clinical services in anaesthesia, procedural sedation, critical care, acute & chronic pain and palliative management.

The purpose of the pain clinic is to provide comprehensive treatments and services including Medication, Minimally invasive interventional procedures (injections) with USG/ Fluoroscopic / CT guided, physiotherapy, biofeedback, activity modification and psychological support to reduce or eliminate pain and thus improve quality of life.

## **FACILITIES & SPECIALITY**

- Radio frequency ablation
- Post anaesthesia Care Unit
- Ambulatory Anaesthesia (Day Care Anaesthesia)
- Acute and Chronic Pain Management
- Epidural injection, Facet Joint injection, SI joint injection
- Trigeminal nerve block
- PRP (Platelet Rich Plasma) Therapy
- Intercostal Nerve block
- Sympathetic Neurolytic injections
- Labour Analgesia

# DEPARTMENT OF PAEDIATRICS

The Department of Pediatrics is dedicated to delivering comprehensive healthcare services for infants, children, and adolescents. With a team of highly skilled pediatricians, neonatologists, and intensivists, we focus on preventive, curative, and critical care, ensuring the overall well-being of young patients.

Our department is equipped with advanced facilities, child-friendly infrastructure, and a compassionate approach that supports both children and their families. From routine check-ups and vaccinations to specialized intensive care for critically ill children and newborns, we provide holistic care under one roof.

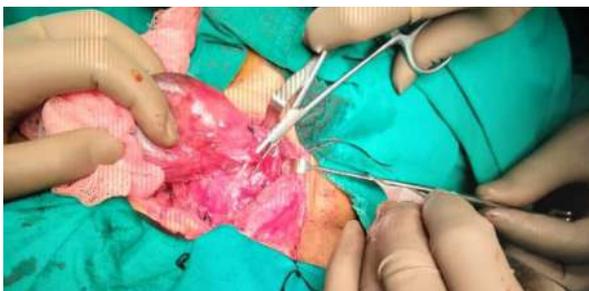

## FACILITIES & SPECIALITY

- Facilities and Specialties Pediatric Intensive Care Unit (PICU)
- Neonatal Intensive Care Unit (NICU)
- Pediatric & Child Health OPD Services 24x7 monitoring and emergency services
- Advanced life-support systems and ventilators
- Multidisciplinary team approach
- Child immunization and vaccination
- Nutrition counseling and growth monitoring
- Allergy and asthma management
- Kidney and urinary tract disease management
- Neurological and developmental care
- Comprehensive treatment for congenital disorders

# DEPARTMENT OF ENT

The Department of ENT at PIMS Multi-speciality Hospital offers advanced treatments for patients with ear, nose, and throat conditions, ensuring the best possible care.

Our team of experienced doctors, with expertise in radiology and audiological investigations, uses the latest equipment and technologies for skull base surgeries, endoscopic nasal surgeries, and cochlear implants. Skilled ENT specialists treat patients across all age groups, supported by trained technicians and physicians who provide accurate reports for precise treatment decisions.

## FACILITIES & SPECIALITY

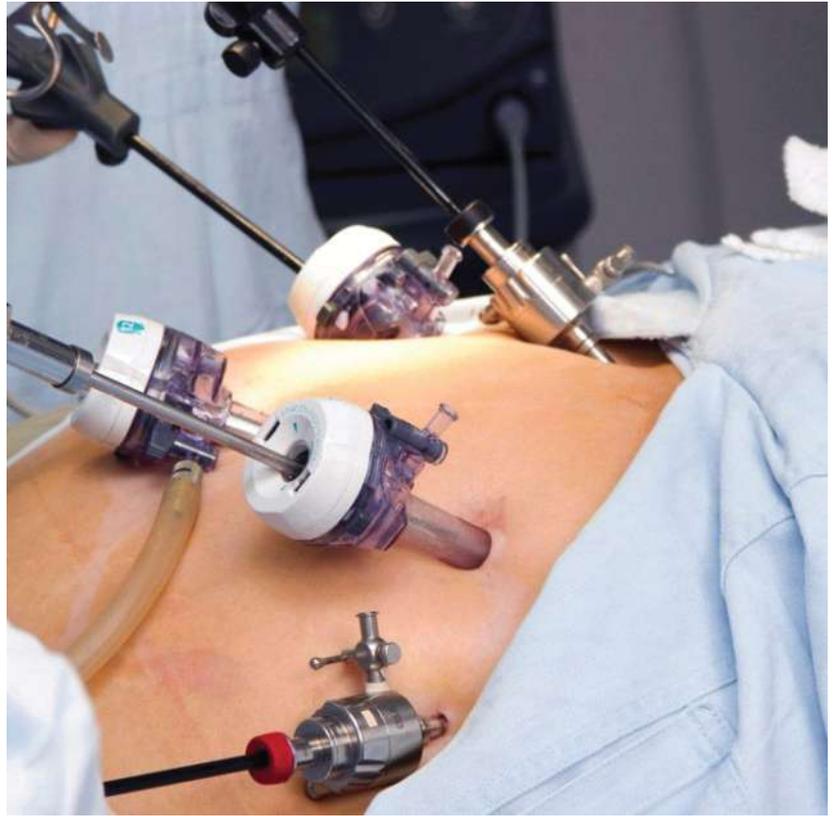

- Otology, Skull base surgeries, CSOM Surgeries, Ossiculoplasties, cavity obliterations, Stapedectomy.
- Facial nerve surgeries including decompression and grafting.
- Rhinology & Endoscopy Surgeries.
- All Microlaryngeal with Thyroplasties, injection laryngoplasties.
- Head Neck surgery & Surgeries for benign disease, thyroid / Salivary glands.
- Surgery for Laryngotracheal Stenosis.
- Cochlear Implant
- Post Laryngectomy, Rehabilitation Speech surgeries.
- Speech therapy, Auditory Processing Disorders.
- Tympanometry, Auditory Processing disorders.
- OAE (Otoacoustic emission test)
- BERA (Brainstem Evoked Response Audiometry)
- Pure tone audiometry, Laryngoscopy, Tracheostomy, Endoscopic.
- Impedance audiometry
- ENG (Electro Nystagmography)

# DEPARTMENT OF GYNAECOLOGY

Our Gynaecology department offers comprehensive care for women across all stages of life - from adolescence and reproductive years to menopause and beyond.

We combine advanced technology with personalised attention to ensure the best outcomes for every patient. Services range from routine check-ups and preventive screenings to the management of complex gynaecological conditions and high-risk pregnancies.

Our team is dedicated to ensuring safe deliveries, effective treatments, and compassionate support throughout your healthcare journey.

## FACILITIES & SPECIALITY

- Postnatal , Family planing clinic
- Delivery for retro positive mother
- Specially equipped to deal with preterm deliveries with the state-of-the-art Neonatal Intensive Care Unit
- GDM (Gestational Diabetes Mellitus) PIH (Pregnancy Induced Hypertension) Eclampsia
- IUGR (Intra Uterine Growth Restriction ) Multiple pregnancies Bad obstetric history
- All high risk pregnancy
- Infertility, Cancer, Post menopausal clinic
- PCOS (Polycystic Ovary Syndrome)
- Haematological complications in pregnancy.
- Management of Ectopic Pregnancy
- Abdominall Vaginal hysterectomies, Pelvic repair surgeries like vault repair.
- Reproductive Endocrinology including Diagnostic Hystero laparoscopy.
- Gynaec oncology -screening for malignancy and management of cancer of uterus, ovary & cervix

# DEPARTMENT OF PSYCHIATRY

The Department of Psychiatry at PIMS Multi-Speciality Hospital has a multi-disciplinary team of Psychiatrists, Clinical Psychologists, and Rehabilitation experts, providing personalized treatment plans for consistent care. The De-addiction Clinic supports individuals with substance dependence, while the department promotes mental well-being in adults and children with psychiatric disorders and emotional challenges.

We offer comprehensive inpatient and outpatient services for assessment, diagnosis, and management, helping patients cope with psychiatric conditions, substance use, major illnesses, and trauma.

## FACILITIES & SPECIALITY

- De-addiction centre, Depression Clinic, Bipolar Disorder Clinic.
- Psychological & Pharmacological treatment of anxiety and stress related disorders.
- Stress management (Acute and Chronic stress), Counseling (Marital, family and grief) and Psychotherapy Service.
- Management of Schizophrenia and Delusional disorder, Panic disorder and OCD treatment.
- Sleep Disorder (Non-organic) management, Psychological and Pharmacological management of behavioral problems in Dementia
- Sexual disorder counseling & treatment services, Women's mental health issues.
- Eating disorders (Anorexia, Bulimia) Personality disorders, management Geriatric psychiatry services.
- Psycho-oncology Services, Suicide prevention clinic Child and adolescent psychiatry, Psychosomatic medicine, Emergency psychiatry.

## DEPARTMENT OF GENERAL MEDICINE

The Department of General Medicine is dedicated to delivering comprehensive care through prevention, diagnosis, and treatment of adult diseases. With expertise in managing complex, multi-system conditions, our physicians address a wide range of illnesses and injuries with precision and compassion.

The department integrates clinical excellence with research and education, ensuring holistic patient care. Services include preventive health check-ups, adult immunization, and hospital-based procedures, covering the majority of medical specialties to promote better health and improved quality of life.

### FACILITIES & SPECIALITY

#### • Services & Facilities

- Medical intensive Care Units
- Separate /Male & Female Wards
- Equipped with sophisticated Ventilators,
- ART centre

#### • Multiparameter Monitors, Infusion Pumps

- Electrically Operated Beds, Diet Consultation
- Isolation ward, COVID ICU & HDU CARE
- Deluxe and superdetuxe room
- Modern amenities
- All medical emergencies and infectious diseases like Leptospirosis.

#### • Dengue fever, Malaria, Chikungunya etc.

- Diabetic clinic, Hypertension clinic, Thyroid clinic.
- Electro Encephalo Gram (EEG).
- Nerve conduction velocity ( NCV).
- CAN

# DEPARTMENT OF GENERAL SURGERY

The Department of General Surgery is perfectly equipped with central oxygen, vacuum, and modern amenities. It provides specialized care in gastrointestinal, hepatobiliary, breast, endocrine, trauma, laparoscopic, and emergency surgeries. The independent OPD block includes consultation rooms, a minor OT, and dressing facilities with easy access to pharmacy, physiotherapy, and radiodiagnosis.

The modular operation theatre complex is centrally air-conditioned, equipped with HEPA filters, laminar flow, advanced anesthesia workstations, antibacterial flooring, and stringent safety standards.

## FACILITIES & SPECIALITY

- Gastrointestinal Surgery
- Hepatobiliary Surgery
- Breast & Endocrine Surgery
- Trauma & Emergency Surgery
- Laparoscopic Surgery
- General & Elective Surgeries
- Central Oxygen & Vacuum Supply
- Spacious Wards with Nursing Stations & Duty Rooms
- Independent OPD Block with Minor OT & Dressing Rooms
- Proximity to Pharmacy, Physiotherapy & Radiodiagnosis
- Modular Operation Theatre Complex
- HEPA Filters & Laminar Flow
- Shadowless LED Lights with Cameras
- Advanced Anesthesia Workstations & Medical Gas Supply
- Antibacterial Flooring & Central Air Conditioning
- Separate Air Handling Units for Each OT

## DEPARTMENT OF CHEST & RESPIRATORY DISEASES

The Department of Chest Medicine at PIMS provides comprehensive care for pulmonary disorders such as Asthma, COPD, Interstitial Lung Diseases, occupational lung disorders, lung cancer, Tuberculosis, Pneumonia, sleep-disordered breathing, and respiratory failure. Facilities include Lung Function and Diffusion studies, arterial blood gas analysis, Bronchoscopies, Sleep studies, and allergy testing (Skin prick & ELISA).

The department also manages DOTS PLUS and RNTCP OPD under the National TB Control Programme and conducts community outreach like asthma education, health surveys, and studies on respiratory morbidity from air pollution.

### FACILITIES & SPECIALITY

- Diagnostic and therapeutic bronchoscopy, including foreign body removal, transbronchial lung biopsy, and virtual bronchoscopy.
- Evaluation and management of lung cancers, tuberculosis, haemoptysis, infections, mediastinal adenopathy, pleural effusions, and empyema.
- Medical thoracoscopy, pleural biopsies, pleurocentesis, ICD insertion, and transthoracic (USG/CT-guided) lung biopsies.
- Comprehensive care for chronic respiratory diseases such as COPD, bronchiectasis, ILD, asthma, and OSA with CPAP titration.
- Specialized clinics for allergy, asthma, smoking cessation, and lung cancer screening.
- Advanced respiratory support including non-invasive ventilation, invasive mechanical ventilation, spirometry, DLCO, chest physiotherapy, and DOTS centre.

## DEPARTMENT OF RADIO-DIAGNOSIS AND IMAGING

The Department of Radio diagnosis & Modern Imaging enjoys a central position at PIMS Multispeciality Hospital and provides a 24\*7 cover for the emergency patients reporting to this hospital. Apart from carrying out various diagnostic investigations, Interventional Procedure CT and Ultrasonography guided procedures are routinely performed. Specialized CT examinations angiography and CT Splenoportovenography with 3D reconstructions are also performed on Daily basis.

### FACILITIES & SPECIALITY

- 1.5 Tesla MRI.
- 128 Slice CT Scanner.
- 3D IOD USG & COLOR DOPPLER.
- 2D USG with COLOR DOPPLER.
- Digital subtraction Angiography (DSA)
- 800 MA X-Ray Unit with Fluoroscope & II TV, Digital Radiography.
- CR System, 100 MA Mobile X-Ray.
- Mammography (Breast X-Ray).
- MR Cardiac Imaging.
- MR Angiography.
- MR Venography, MR Fistulogram, MR Urography.
- CT Coronary Angiography.
- CT Venography, 3D Reconstruction.
- CT Guided Biopsy/FNAC

## More Institute ...

### VENKTESHWAR INSTITUTE OF PARAMEDICAL SCIENCES

- **Diploma**  
Radiation Technology, Operation Theater Technology, Medical Laboratory Technology, ECG Technology, Cath Lab Technology, Dialysis Technology, Blood Bank Technology, Endoscopy Technology, EEG Technology, Ophthalmic Technology
